MY PROJECTS

Online Food Delivery System   **Oct 2024- Nov 2024**
- Successfully developed and delivered a comprehensive online food delivery platform with user and admin interfaces using the MERN stack.
- Implemented robust authentication and authorization mechanisms, enhancing security and user trust.
- Enabled users to browse menus by category, order food, reserve seats, and process payments securely through Stripe.

EventSphere – Event Management System   **Sep 2024- Oct 2024**
- Developed a full-stack MERN application with distinct Admin, Exhibitor, and Frontend interfaces.
- Implemented key features including event booking and profile management..
- Addressed and resolved CSS conflicts across different interfaces.
